## SOURCE & USE

This standalone reference compiles the Champion class rules from the user-provided DC20 Beta 0.10.5 rulebook. Rules are reorganized for table use while preserving the class terminology, choices, costs, ranges, and level structure. The rulebook remains authoritative if a later rules version changes them.

## MARTIAL CLASS

# Champion

Champions are weapon and armor specialists that push themselves to the limit in combat. They are able to master a wide variety of weapon types and learn their enemies as they fight them.

Source of Power: Champions train intensely to master all types of weapons and armor. They could be outfitted in heavy armor and a shield, swing a greatsword with ease, or become a highly trained archer.
