SOURCE & USE

This reference is based on the Sorcerer rules in the user-provided DC20 Beta 0.10.5 rulebook. It reorganizes the class table, Level 1-6 features, subclasses, and class talents into a compact table-friendly format. Use the rulebook as authority if a later rules update changes wording or values.

SPELLCASTING CLASS

Sorcerer

Sorcerers tap into raw magic in their own bodies, manipulating and sculpting magic with instinct. They can overload themselves and push beyond normal magical limits.
